MISSION STATEMENT

A few words for the Congress

This Annual International Congress is an Independent International Congress of Internal Medicine organised by the Institute of Internal Medicine and Hepatology and the Department of Medicine and Research Laboratory of Internal Medicine, University of Thessaly Medical School, hosting attendees around the world and with the active participation of established and distinguished international scientists and experts.

The Organization Committee has achieved notable successes in recent years by focusing on educational methodologies and closely aligning its Congress programmes with proven scientific content.

PROMOTING LIFELONG LEARNING

Scientific Programme

The multi topic scientific programme, given the importance of the international character of the Congress, is designed to feature rather interesting plenary state of- the-art lectures, delivered by leading foreign and Greek experts, round tables designed in collaboration with different Scientific Societies covering hot topics and current issues in the field of Internal Medicine, up-to-date symposia along with satellite lectures and symposia.

- Brings topics with broad, interdisciplinary interest to open dialogue
- Highlights the latest scientific achievements in a variety of diseases encountered in everyday clinical practice of Internal Medicine.
- Includes the latest developments and innovations of Internal Medicine
- Provides young colleagues with a great opportunity to present their work, research and clinical experience through oral presentations and e-posters covering various fields of Internal Medicine.
